

50-State Plug-In Solar Cheat Sheet

Where plug-in / balcony solar stands in every U.S. state - verified as of 2026-07-08

pluginsolarhub.org

8 states have signed plug-in solar into law. 2 has passed its legislature and is awaiting the governor. The rest sit in a gray area: not banned, but governed by your utility's interconnection rules rather than a clear statute. Where a state has a law, the cap column shows the maximum inverter output it allows.

State	Status	Cap	c/kWh	Main utility
Alabama	Gray area	-	15	check utility
Alaska	Gray area	-	24	check utility
Arizona	Gray area	-	15	APS, SRP
Arkansas	Gray area	-	13	Entergy
California	Gray area	-	31	check utility
Colorado	Legal from 01 Jan 2027	1920 W	15	Xcel Energy
Connecticut	Legal from 01 Oct 2026	1200 W	29	Eversource, United Illuminating
Delaware	Gray area	-	17	Delmarva
Florida	Gray area	-	15	check utility
Georgia	Gray area	-	14	Georgia Power
Hawaii	Gray area	-	42	Hawaiian Electric
Idaho	Gray area	-	11	Idaho Power
Illinois	Gray area	-	17	ComEd, Ameren
Indiana	Gray area	-	16	Duke Energy
Iowa	Gray area	-	14	Alliant Energy
Kansas	Gray area	-	14	check utility
Kentucky	Gray area	-	13	check utility
Louisiana	Gray area	-	12	Entergy
Maine	Legal from 15 Jul 2026	1200 W	24	check utility
Maryland	Legal from 12 May 2026	1200 W	17	Pepco, BGE
Massachusetts	Gray area	-	30	check utility
Michigan	Gray area	-	19	DTE, Consumers Energy
Minnesota	Gray area	-	15	Xcel Energy
Mississippi	Gray area	-	13	Entergy
Missouri	Gray area	-	13	Ameren
Montana	Gray area	-	13	check utility
Nebraska	Gray area	-	12	check utility
Nevada	Gray area	-	15	NV Energy
New Hampshire	Legal from 01 Jan 2027	1200 W	24	Eversource, Unitil
New Jersey	Passed - awaiting Gov.	1200 W	18	PSE&G, JCP&L
New Mexico	Gray area	-	15	check utility
New York	Passed - awaiting Gov.	1200 W	25	Con Edison, National Grid, NYSEG
North Carolina	Gray area	-	14	Duke Energy
North Dakota	Gray area	-	12	Xcel Energy
Ohio	Gray area	-	16	FirstEnergy
Oklahoma	Gray area	-	13	check utility
Oregon	Gray area	-	13	check utility

State	Status	Cap	c/kWh	Main utility
Pennsylvania	Gray area	-	18	check utility
Rhode Island	Gray area	-	29	check utility
South Carolina	Gray area	-	15	Duke Energy, Dominion Energy
South Dakota	Gray area	-	13	Xcel Energy
Tennessee	Gray area	-	13	check utility
Texas	Gray area	-	15	check utility
Utah	Legal from 07 May 2025	1200 W	11	check utility
Vermont	Legal from 01 Jul 2026	1200 W	21	Green Mountain Power
Virginia	Legal from 01 Jul 2026	1200 W	14	Dominion Energy
Washington	Gray area	-	11	check utility
West Virginia	Gray area	-	15	check utility
Wisconsin	Gray area	-	17	Alliant Energy, We Energies
Wyoming	Gray area	-	12	Rocky Mountain Power

3 questions to ask your utility before you buy

1. Do you allow a small plug-in / behind-the-meter grid-tied solar system on a standard outlet?
2. Is any notification or interconnection form required - and is there a fee?
3. What is the maximum inverter output you permit per meter?

Get the answer in writing. Choose a UL-listed (UL 3700 pathway) kit, and stay inside the cap they give you.

Full detail for your state, updated as laws change: pluginsolarhub.org/state-legality/
